1. General Information

1.1 System Overview

A unique Library app that tries to market our Public Library, through social interaction.

Users are given a chance to publish public stories in an interactive news feed that lets them share their stories with others, a website is also included that opens the public up to new published content and reviews. Also included is a suggestion field that lets users share their suggestion anonymously, with the desired effect of improving the library.

The application is currently under development and may contain functional issues. The system will require an android phone.

1.2 Authorized Use Permission

The misuse or unauthorized distribution and modification of this application and any related documents is prohibited.

1.3 Points of Contact

1.3.1 Information

Tevin Mhlanga

Email: tevin.mhlanga@outlook.com

2 System Summary

2.1 System Configuration

This app requires only internet access and a working google account.

3 Quick start guide.

3.1 Logging on.

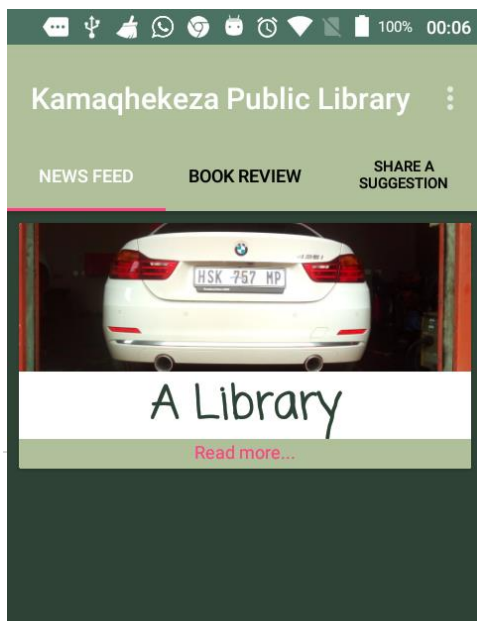

To log in, press the login with Google. This button will check for Google accounts signed in on your device currently and uses the that account to sign you into the app.

NB. This requires internet access.

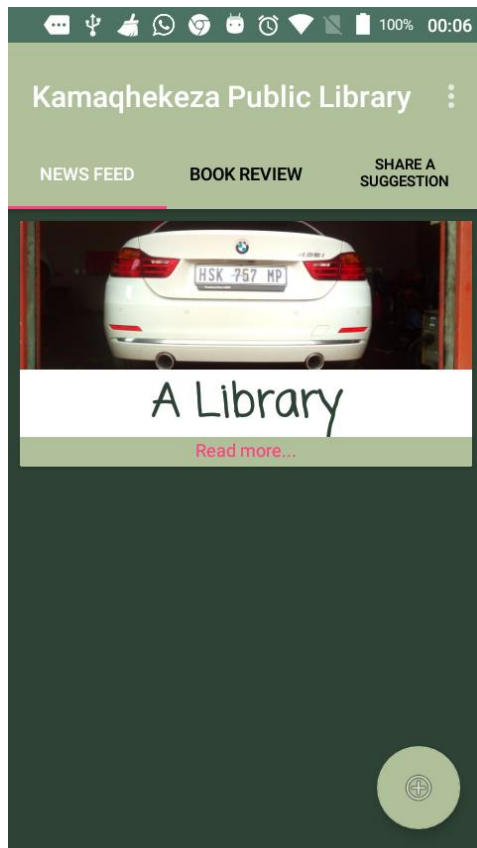

Insure you internet access , before trying to use this application.

3.2 The news Feed

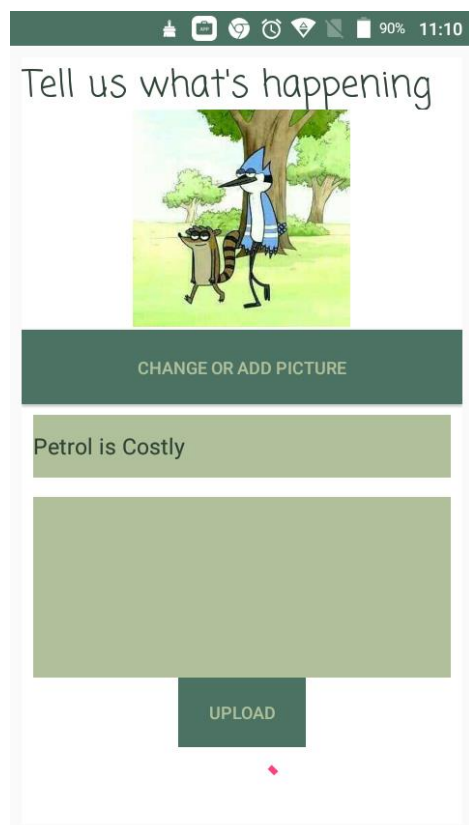

After logging in you will be shown the news feed, which is populated by existing stories that have been created by other users.

3.1.1 Adding a story to the News Feed.

To add a story to the feed press the plus sign on the floating button which will lead you to an add story activity.

To add a picture

Press the Change/Add Picture button. Choose a picture from the gallery.

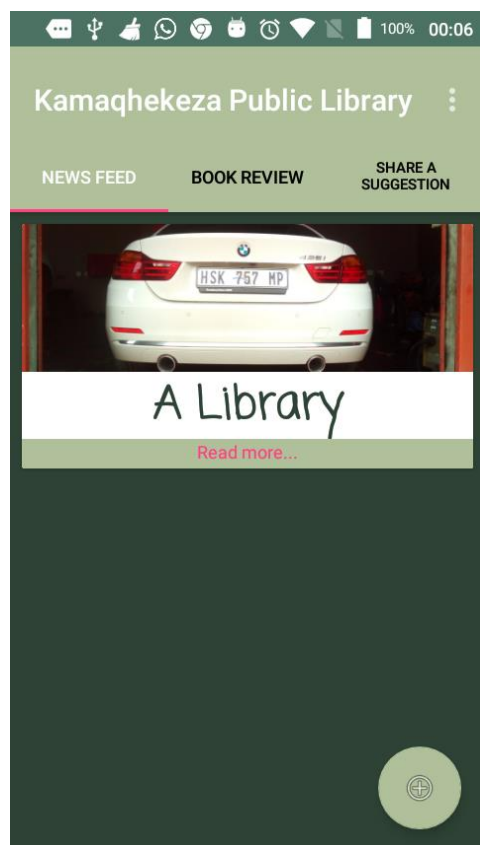

Adding the content

Add a title on the first text area, then type in your full story in the second text area.

Uploading

Press the upload button and wait for the progress bar, after completion, you will be sent back to the News activity where your story will be visible. To cancel press back key.

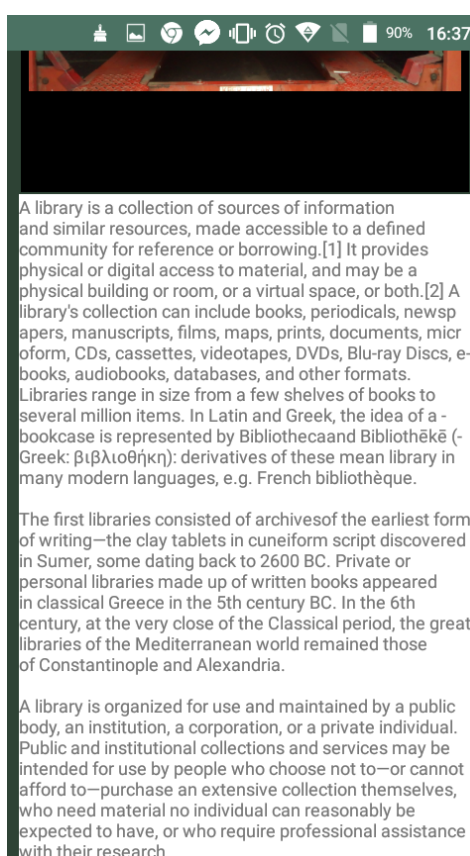

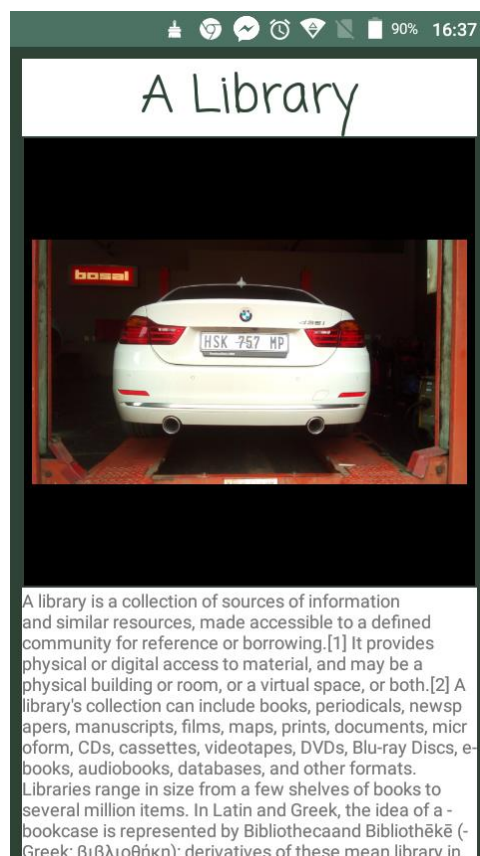

3.1.2 Read a story from the News Feed.

To read existing stories click on Read More area on the story you intend on reading.

Reading navigation

Just scroll up and down to navigate through the contents of the story.

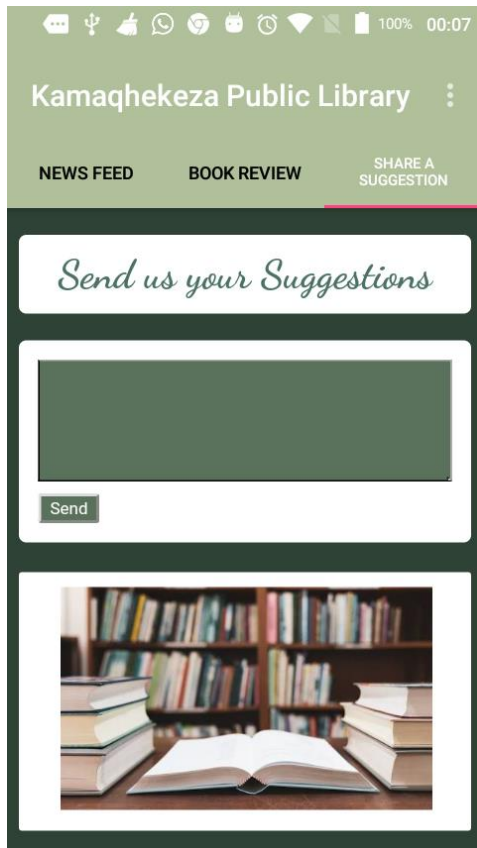

3.2 Book Reviews

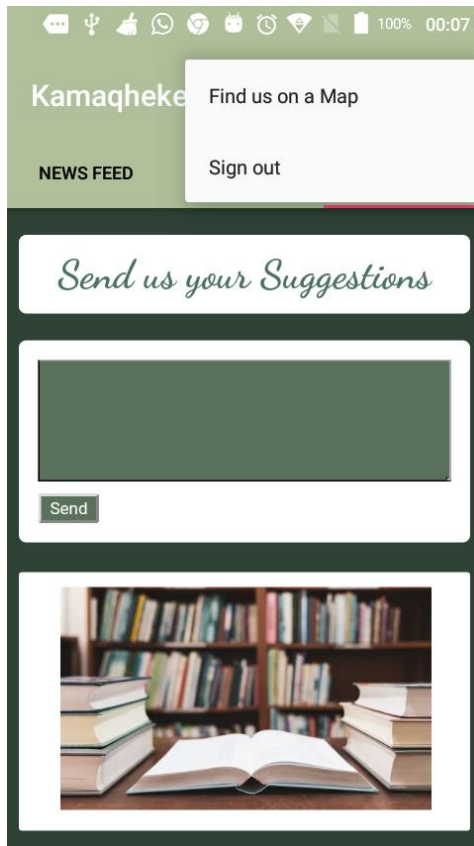

This is a fully functioning website that has book reviews for all the books you can think of, simply search for the book and read the reviews from thousands of book worms. Or take advantage of its other features.

3.3 Send Suggestions

To send a suggestion simply just type your suggestion in the text area and click send.

3.4 Menu options

After pressing the menu button you will be presented with two options ***Find us on a Map*** and ***Sign out***.

Find us on a Map'

Takes you to a map activity that shows you the location of the library.

Sign out

This will sign you out from the application.

3.4.1 Find us on a Map

Shows you the Geographical position of the library.

Can also be used to navigate to the library.
